1. Advertisement for Paid Internship (6 Months)

Solid State Physics Laboratory (SSPL) is engaged in research in the area of advanced semiconductor materials and devices. Research domains include development of compound semiconductors (bulk crystal and epi-layer structure), MEMS, MMICs, acoustic sensor systems, laser diodes, IR sensors, and nanotechnology. The lab is equipped with state-of-the-art facilities for material preparation, characterization, device fabrication, and circuit design.

Applications are invited from bright and young students for a 6-month Paid Internship to work in research areas of national importance.
